## Kneader Sheeter's CA 310 EL-DV

The automatic sheeter CA 310 EL-DV is an automatic machine to produce cold laminated pasta sheet. The sheet formed can be used as part of a continuous feeding line or wound on reels for further calibration to produce ravioli, tortellini, cappelletti, tagliatelle, etc.

It is provided with a double tank, one tilting mixing tank at the back and one front hopper.

The hygienic design incorporates a **twin sidewall** construction which creates a distance between the bearings and the working area so any product can be easily removed.

There are no sharp edges and incorporates a tilting hopper for **deep and quick cleaning**. All food contact parts are made in stainless steel or a food grade material.

The machine is provided with motor driven loading hopper, double passage gremola, final **calibrating rollers** 120 mm. diameter **all in stainless steel** and sheet conveyor belt.

Command, control and safety devices according to CE standard.

Machine	Unit	310
Hourly production	Kg	160
Sheet width	mm.	310
Sheet thickness	mm.	6
Tank capacity	Kg	42
Size	mm.	1170 x 980 x 1450
