Double Sheet Ravioli Former RS 09

The Automatic Ravioli Former RS 09 produces double sheet ravioli and is suitable for all soft fillings including large particulate varieties. Its compact design means its perfect for small to medium production.

Main technical features:

- Interchangeable dies for different shapes: square, round, half-moon; special shapes at request.
- Adjustable filling depositor plate.
- Twin laminating group with independent pasta sheet thickness adjustment.
- Stainless steel structure, all food contact parts are made in stainless steel or a food grade material.
- Powered outfeed conveyor.
