

Sheet Cutter TA 155

The Automatic Sheet Cutter TA 155 can produce tagliatelle, fettuccine, tagliolini, and lasagne. It features automatic thickness adjustment, longitudinal and transversal pasta sheet cutting. Compact and versatile, this machine is suited to small scale production.

Main technical features:

- Stainless steel frame with integrated product collecting trays.
- The calibrating rollers are adjustable by hand and come complete with a thickness indicator.
- Interchangeable, longitudinal cutting group (3 sizes); sizes at choice
- Transversal cutting by rotating knife with variable speed to adjust the length.
